It doesn’t have

Bringing ideas to life takes place quickly and efficiently. In most private gardens, laying the curbs takes no more than a day. Naturally, it takes longer for larger landscaping projects.

However, our specially designed machinery produces complete curbs in record time – with no cement mixers and mini trenchers making a mess of your garden.

We hope this brochure has whetted your appetite. If you would like to learn more, please visit www.scandicurb.com.

If you would like a quotation or if you have any specific questions, then please do not hesitate to contact us.

TO BE ALL SQUARE

ScandiCurb gives you the freedom to think freely. You can choose between a wide variety of shapes, colours and effects... or opt for a completely unique design where we cast the desired curb solution on site.

This means you can decide whether your new curbs should be straight, winding or perhaps both.

There is no doubt that your new curbs will last for many years. In Canada, for instance, which has a similar climate to Denmark, the ScandiCurb solution has become increasingly popular in recent decades. People have become aware of the clear benefits it offers, both in the private and public sectors. In addition to casting practical, beautiful and durable curbs, ScandiCurb is also a very economical solution, especially when you consider its durability and the fact that gardens and parks will be enjoyed for many years to come.

Open your eyes to a world of new opportunities

YOU HAVE TO DRAW A LINE SOMEWHERE...

There is a lot to be said for thinking in much more practical and economic terms.

And everything points to a classic and durable solution from ScandiCurb.
